iPhone trial purchase: logins and steps

18 October 2026. TEST accounts and TEST money only. Both show an amber TEST ACCOUNT strip on every screen.

Logins

	Buyer (the iPhone user)	Seller (second phone or PC)
Name	TEST iPhone Buyer	TEST iPhone Seller
Phone number	08050000021	08050000022
PIN	739214	739214
Role	Buyer	Property owner
Wallet	N100,000,000 test money (recorded as DEMOFUND-IPHONE-BUYER)	N0 (receives the sale proceeds)

The property to buy

Listing	3 Bedroom Duplex, Barnawa, Kaduna South, Kaduna
Reference	PROP-000857
Asking price	N58,000,000 (inside the N55-60 million target)
Status	Active and verified, owned by TEST iPhone Seller
Photos	4 sample photos

The buyer sees this listing because both accounts are test accounts. Real customers do not see it.

A to Z: the trial

#	Who	What to do
1	Buyer	Open CHS from the home-screen icon. Log in with 08050000021 and PIN 739214. Check the wallet shows N100,000,000.
2	Buyer	Search for Duplex in Kaduna, or open the listing PROP-000857. Look through the photos and details.
3	Buyer	Make an offer (the full N58,000,000, or a lower offer such as N55,000,000 to test negotiation). Messages in a negotiation are reviewed by CHS admin before the other side sees them.
4	Admin	Approve any negotiation message waiting for review (Admin dashboard).
5	Seller	On a second phone or a PC, log in with 08050000022 and PIN 739214. Open the owner dashboard and the offer. Accept it (or counter).
6	Buyer	Open My Offers. When the offer is accepted, start the payment. The confirm screen shows price plus CHS commission; money never moves on one tap. Set a Payment PIN if the app asks.
7	Buyer	Pay from the wallet. The money is held in escrow, not sent to the seller.
8	Both	Complete the document and inspection steps shown for the sale.
9	Admin	Release the money: choose the percentage to release (default 60%) in the admin release panel, then the balance later. Nothing is paid out automatically.

10	Both	Check the receipt, wallet balances and notifications on both phones.

What to record on the iPhone

For each step note: did it open, did the keyboard cover anything, did a button sit under the bottom bar, did the payment screen return to CHS, and screenshot any error. Send these to the CHS team.

Please note

The accounts and listing are real in the live database and the login was checked at database level. I could not run a live sign-in from my side, so the first iPhone login is the true test; tell us at once if it fails. The step names above follow the app's flow; exact button labels may differ slightly. Change the PIN of these accounts after the trial. They hold test money only and can be switched off by the admin.
